Why use InsideEDGE?

We understand the automotive industry and are bursting to help you with any questions you have. Our Novated Lease Specialists can help you with:

- ✓ Independent car advice about manufacturers, models, and brands
- ✓ We are the industry leaders in electric vehicles and will help maximise your tax savings
- ✓ Help you find the right car to suit your lifestyle needs and budget
- ✓ Trade-in advice to maximise your re-sale or trade-in dollars especially in the EV market
- ✓ Inside knowledge regarding Car Dealer's available makes and models
- ✓ Advice on how to novate your current car, or salary package more than one car for a family member.

What is a novated lease?

A novated lease is an ATO (Australian Tax Office) approved arrangement between you, your employer and a finance company that allows you to pay for your car and its ongoing expenses in pre-tax dollars.

It's the smartest way to buy and run your car, and it lets you bundle your lease and car's running costs including fuel, insurance, registration, maintenance and servicing, into a regular payment each pay period.

We set up these deductions with your employer to maximise your tax savings, so you end up with more money in your pocket. How good!

All of your costs bundled

Save tax and GST on the purchase price of your car

Save time, we do all the legwork

Enjoy additional tax benefits leasing an EV

Dedicated Novated Lease Specialist

Get more money in your pocket!

With InsideEDGE novated leasing is easy. We are here to help you every step of the way.

Myth Busters.

Don't believe everything you hear!

- There's a requirement to travel a minimum amount of KM's annually
- You need to be a high income earner to save through a novated lease
- You can only novate a new car, not a used, demo or your existing car
- You don't own your car if it's a lease.

Save even more with an Electric Vehicle.

Can you novate an EV? Yes! And thanks to the Federal Government's Climate Policy, FBT (Fringe Benefits Tax) has been removed from electric vehicles (EV) with low-zero emissions.

The removal of FBT significantly lowers the cost of owning and running your EV, due to the additional tax-savings.

The policy covers:

✔ Battery Electric Vehicles (EVs), and Plug-in Hybrid Electric Vehicles (PHEVs) with a purchase price below \$89,332.

The bill does not cover:

✘ Hybrid Electric Vehicles (HEVs). HEVs are not covered as they are still powered by a petrol or diesel engine using an electric motor to increase the vehicle's fuel efficiency.

You do the math!

Use our online calculators to give you an idea of just how much you could save with an InsideEDGE novated lease.

DIESEL/FUEL VEHICLES
